SKILLS

- **Languages:** Python, JavaScript, C, SQL, C++
- **Web Technologies:** HTML, CSS
- **Tools/Platforms:** Git, GitHub, MySQL, Code Tantra, Neo Browser
- **Core Skills :** Data Structures & Algorithms, Problem Solving, OOP
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

PROJECTS

- **College Enquiry Chatbot | Academic Project**
 - Designed and developed a chatbot to provide quick and automated responses to common college-related queries from students and visitors.
 - Implemented a structured query-handling system to provide information about courses, admissions, departments, facilities, and other college-related services.
 - Focused on improving accessibility and reducing manual enquiry workload by providing students with instant and user-friendly responses.
- **Vertical Farming Module | ECE Academic Project**
 - Designed and developed a smart vertical farming system to maximize crop production in limited space while promoting sustainable agricultural practices.
 - Integrated sensors to monitor temperature, humidity, soil moisture, and light intensity, enabling continuous tracking of essential plant-growth conditions.
 - Implemented an automated monitoring approach to optimize resource utilization, reduce manual intervention, and maintain suitable environmental conditions for healthier plant growth.

CERTIFICATES

- Introduction to python | *Infosys springboard*
- Introduction to cyber security | *Infosys springboard*
- Computer Language | *Neo Browser*
- Basics of Leadership & Human Behavior in Change Management | *Uniathena*

ACHIEVEMENTS

- Successfully designed and developed a **Smart Vertical Farming System**, integrating environmental sensors for real-time monitoring and efficient resource management.
- Developed a **College Enquiry Chatbot** to provide automated responses to common student queries and improve accessibility to college-related information.
- Successfully completed multiple **academic technology projects**, demonstrating practical knowledge of programming, problem-solving, system design, and automation.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology *Aug' 26 – Present*
Computer Science and Engineering
- **G.U.M.S Mangalpur Gudariya** West Champaran, Bihar
Intermediate *Mar' 24 - Mar' 25*
PCM; Percentage: 70.8%
- **G.U.M.S Mangalpur Gudariya** West Champaran, Bihar
Matriculation *Mar' 22 - Mar' 23*
Percentage: 85.8%
